# CADEN EDGE™

MAX TILL—MAX YIELDS

CADEN Edge uses a unique tungsten carbide blend to infuse your tillage tools with greater strength. Developed to withstand the toughest conditions and higher tillage speeds, CADEN Edge means more acres per sweep, less downtime, improved yields and an enhanced bottom line.

Carl Sülberg is recognized for their high quality forged sickle guards.

- Forged in Germany from top quality steel.
- Variety of heat-treatments ensure the guards meet the needs they are designed for.
- Precise Blade Guidance allows guards to optimally support the cut, without causing excessive resistance.
- Designed with predetermined breaking points, ensuring guards do not bend.
